Trust the Natives.

Nokian Tyres. In a class of its own wherever winter bites.

Nokian Tyres has manufactured winter tyres since 1934. No wonder they are a concept wherever the word winter is known.

Mastery of northern conditions can be both seen and felt in every Nokian winter tyre. You can confidently enjoy the performance and driving properties of your car throughout the winter.

nokian

WR G2

Ultimate slush performance

An ultra-modern asymmetrical inside/outside tread pattern gives **Nokian WR G2** the diverse properties needed in Central Europe.

The shape and siping of the outer shoulder make the tyre easy to handle and stable to drive on all surfaces, while the inner shoulder ensures outstanding grip. Nokian Tyres is also the pioneer in developing new solutions for safer driving in slush: its innovative slush edge and polished grooves thrust heavy slush and water aside to prevent aquaplaning.

- Efficiently prevents slush planing
- Safety through good grip both on wet, snowy and dry roads
- Stable handling qualities even at high speed
- Manufactured using only purified, low-aromatic oils

WR G2 SUV

New SUV tyre for demanding winter driving

Nokian WR G2 SUV friction tyre was developed for the needs of European SUV drivers. When designing the tyre, special attention was placed on how easy it will be to handle particularly at high speeds and on different road surfaces.

The tyre's unique drivability comes into its own when curving, changing lanes or steering clear of obstacles. It reacts precisely and promptly to the driver's steering. The excellent slush grip properties of Nokian WR G2 SUV are the result of new technological innovations: the slush edge, an asymmetrical tread pattern and polished grooves.

Nokian WR G2 SUV rolls smoothly thanks to the locked siping in its middle rib and the mixture of canola oil and silica in its tread. The tyre's low rolling resistance reduces fuel consumption and carbon dioxide emissions.

- Excellent handling on both snowy and dry surfaces
- Outstanding slush properties
- Extreme wet performance
- Manufactured using only purified, low-aromatic oils
